INSTALLATION INSTRUCTIONS

Turn off electrical power at breaker!

1. Pull wires in and clamp them together (figure 1). Using the screws provided, mount the second fan box to the 2 x 4.
2. Put locknuts on mounting bolts, push wires back into box and replace Saf-T-Cap® (figure 2).
3. Saf-T-Cap® will protect bolts, nuts, and wires during sheetrocking and painting (figure 3).
4. After ceiling is complete, remove Saf-T-Cap® and locknuts. Using the locknuts, mount fan or fixture bracket to fan box and complete wiring according to fan or fixture manufacturer's instructions (figure 4).

INSTRUCCIONES DE INSTALACION

¡Apague la corriente eléctrica en el disyuntor!

1. Hale los cables para dentro y sujetelo con la abrazadera (figura 1). Usando los tornillos provistos, monte la caja de empalme a la tabla 2 x 4.
2. Ponga las tuercas en las pernas de montaje, empuje los cables de nuevo dentro de la caja y reemplaze la Saf-T-Cap® (figura 2).
3. Saf-T-Cap® protegerá los tornillos, tuercas y cables mientras se pinta o se ponen las planchas (figura 3).
4. Después que el techo esté completo, quite el Saf-T-Cap® y tuercas de seguridad. Usando las tuercas de seguridad, monte la abrazadera de lámpara, ventilador ó adorno a la caja del ventilador y complete el cableado de acuerdo a las instrucciones del ventilador o adorno (figura 4).
